

## Seton Home Study School- Independent Study Form

Student Name: Rebekah Stewart Student ID #: 1008172.04

Grade Level: 12 Course/Subject Title: Advanced Chemistry with Lab

*Please report the percentage grade and total number of hours which includes: actual instruction (contact hours) provided to the student, time spent by the student completing homework assignments, studying, or in unsupervised practice/activities.*

1<sup>st</sup> Quarter Grade: 97 % and 35 Hours

2<sup>nd</sup> Quarter Grade: 100 % and 35 Hours

3<sup>rd</sup> Quarter Grade: 98 % and 35 Hours

4<sup>th</sup> Quarter Grade: 96 % and 35 Hours

(70-139 total hours) = 1 semester = 0.5 credit

(140+ total hours) = 2 semesters = 1.0 credit

***Dual Enrollment College Level Courses: 1 Semester will equal 1 full year high school credit. Please submit the transcript from the college with this form and report the FINAL GRADE HERE: \_\_\_\_\_ %***

Please attach a sample of your student's work, such as: a quiz, test or worksheet that was used to determine the student's final quarter grade. If the final quarter grade was based on the instructor's observation of the student's performance, or on an evaluation of student products or other deliverables, please attach one or two of the following: photographs, audio/video recordings, competitive awards, samples, copies of recital/performance programs, criteria or checklists, or other descriptive material supporting the assigned grade. This could also be an official transcript from a college or another accredited institution.

Attachments, check as applicable: ☒ Graded Tests ☒ Graded Major Assignments/Projects ☐ Other Graded Work ☐ Photographs ☐ Audio/Video Recordings ☐ Awards ☐ College Transcript

**Instructor Comments:** If possible, include an overall assessment of the student's progress in achieving the learning objectives of this Independent Study, and comments on any special achievements or other related information.

Becky completed all work and tests in the Apologia Advanced Chemistry in Creation text. This includes the quarterly tests and several labs. Her submitted course materials include 4 lab reports. Her lab work consists of 18 hours time spent on these and other labs. She has shown a clear understanding of chemical modeling, chemical equations, and the mathematics required. Course materials: <https://github.com/mltpa-alta/Homeschool/tree/main/Becky/AdvancedChemistry>

(Optional) Instructor's Signature: \_\_\_\_\_
